COLLEAGUES SAY HIS WORK WAS OF FIRST RANK.

ACCOMPLISHED MUCH IN HOUSE

UNTIRING INDUSTRY MATTER OF GENERAL COMMENT.

WOULD MAKE GOOD SENATOR

All Declare Colorado Could Find No Better Man—Chairman Scott of Agricultural Committee Writes Most Complimentary Letter.

When members of the House of Representatives, both Republican and Democratic, take the trouble to write letters expressing the hope that Hon. Franklin E. Brooks will be selected as Colorado's next senator, it is proof sufficient that as congressman-at-large, Mr. Brooks distinguished himself among his colleagues and won their admiration by his effective way of getting things done.

All Indorse Work.

Several letters relative to Mr. Brooks' candidacy have been received by residents of Colorado Springs as well as by Mr. Brooks himself, since the announcement was made that he would enter the race as a candidate for the United States Senate. These are principally from members of the committees on which Mr. Brooks worked, who are in a better position than any others to know the real value of his work as a congressman. All speak of the effective work, of his untiring industry, his incessant watchfulness for the interests of his constituents and his ability to accomplish things.

Will Answer All Questions.

Charles F. Scott, from Kansas, chairman of the committee on agriculture, on which Mr. Brooks served during his two terms, has just written Mr. Brooks a most complimentary letter. In this he expresses a willingness to answer any questions in regard to Mr. Brooks' record that may be asked either by friends or opponents. It might be wise for the Evening Telegraph or for Mr. Hamlin or his friends, to avail themselves of this opportunity. Mr. Scott was in a position to know Mr. Brooks' value as a legislator better than many others, and his letter shows how much he valued the ability of the congressman-at-large from Colorado.

From a Democrat.

E. S. Chandler, Jr., although a Democrat from Mississippi, as far back as last September wrote an unsolicited letter to Don C. Walters of Colorado City, one of his personal friends, stating that Colorado, if it were to select a Republican, could pick no abler or better man than Franklin E. Brooks. "He succeeded in a wonderful way to such an extent that it was a matter of comment generally over the House." is the way Joseph V. Graff of Illinois, of the committee on appropriations, tells of the effective work Mr. Brooks did for his constituents. This letter was written recently to W. P. Bogardus of this city.

These three letters are as follows:

Scott Praises Brooks' Work.

Committee on Agriculture, House of Representatives, U. S., Washington, D. C., March 4, 1908.

My Dear Brooks—I notice by Colorado papers, and also learn through conversation with Colorado representatives in the House, that you are a candidate for the United States Senate, and I cannot forbear expressing my most cordial wishes for your success. I do not know who your competitor or competitors may be for this distinguished honor, but, without any reflection upon them whatever, I feel sure that if the people of Colorado knew you and your legislative work as we do who associated with you here in

ALIA'S TRIAL WILL BE BRIEF

CASE WILL PROBABLY GO TO JURY TODAY.

ONE WITNESS ALLEGES PLOT

SAYS SHE SAW TWO MEN TALK WITH MURDERER.

PRISONER IS INDIFFERENT

Several Expert Alienists Give Testimony to the Sanity of Father Leo's Slayer—Defense Will Open the Case This Morning.

DENVER, Colo., March 10.—The prosecution in the case of Giuseppe Alia, charged with the murder of Father Leo Heinrichs of St. Elizabeth's Catholic church February 23, nearly completed the presentation of its evidence today, and the fate of the defendant will probably rest in the hands of the jury by tomorrow night.

The developments today showed that there were only two witnesses to the killing, and while there were seventy or eighty other people in the church at the time, none of them saw the shot fired.

The suggestion of a plot was introduced by the testimony of Mrs. Van Cleave, but there was no corroboration of her testimony.

Bossie Gives Evidence.

At the afternoon session, Detective Claude Bossie testified regarding his interviews with the prisoner shortly after his arrest. He told of visiting Alia's room and finding among his effects a box of cartridges, some clothing, a file and one other tool. The file showed lead in its rough sides and it was intimated that Alia had used it to sharpen the bullets found in his gun. Alia had claimed in his confession that he had bought these bullets in South America at the same time he bought the revolver.

The revolver, cartridges and file were exhibited to the jury. Bossie repeated the story of Alia's crime as told him by the prisoner. His testimony was similar to that of other witnesses, except that Bossie said Alia asked him if the priest he had shot had a scar on his forehead, and when informed that Father Leo had no such scar, Alia declared he had killed the wrong man, but anyway he was a priest.

May Have Been Plot.

Mrs. M. Van Cleave, a communicant of St. Elizabeth's church testified she saw Alia at the church three times before the tragedy and each time he was accompanied by two other men. On the second visit the men talked together and Alia pointed towards the altar. She was in the church at the early mass on February 23, and although she did not see the actual shooting, she saw Alia running down the aisle waving his pistol.

Joseph Hines, aged 9 years, altar boy at St. Elizabeth church, was the first witness of the actual shooting. He said that Father Leo handed the host to Alia upon the sacred wafer during communion and that Alia spat out the wafer and drawing a gun with his left hand fired at the priest.

As Father Leo staggered back Alia rushed down the aisle waving his gun.

Joe Miller, aged 12 years, the other altar boy, corroborated the testimony of young Hines. Several other witnesses testified they heard the shot fired and saw Alia running down the aisle.

Experts Testify.

The day's session closed with the examination of expert witnesses. Four physicians, whose specialty is brain and nervous diseases, testified that they had examined Alia and found him wholly sane. The prosecution still has three experts to put on the stand. Their testimony will be heard tomorrow morning and the defense will then open.

A TIGHT SQUEEZE.

S. S. BERNARD WILL WIN

SO SAY "WISE ONES" WHO ARE "ON THE INSIDE."

Burris, However, Insists That He Has Slight Majority and Will Win Victory Today.

If S. S. Bernard does not control the situation when the fight for the control of the El Paso Consolidated Gold Mining company comes to a head at the meeting this afternoon, the predictions of those who are "on the inside" will be badly upset. As a result of the counting of the votes and proxies, which was practically finished by the credentials committee last night, Bernard is said to have a majority of at least 100,000. Unless Burris has some unexpected trump card up his sleeve which will turn the tide of battle in his favor at the last minute his struggle for the last six months to oust the present management will result in failure, according to the "wise ones."

Some Interesting Figures.

Of the 2,500,000 shares of capital stock of the company, there are 2,450,000 outstanding and 50,000 in the treasury. The Bernard faction is said to have represented 1,325,000 shares of stock at the meeting Monday. Of these, the count, up to and including the letter "W," shows that proxies for only 4,100 have been revoked. This leaves 1,314,900 in Bernard's hands, and he could suffer a loss of more than 100,000 in the three remaining letters of the alphabet, X, Y and Z, and still have a safe majority, if the figures given out are correct.

Burris Claims Victory.

In spite of the confidence of Bernard's friends, the completion of the votes at 1 o'clock this (Wednesday) morning, gave renewed faith to the Burris forces. The claim is made for them that Burris will win out by a

ALFONSO IS WELCOMED

VISIT TO BARCELONA CREATES ENTHUSIASM.

Will Result in Winning Loyalty of Catalonians—King Greatly Pleased.

BARCELONA, March 10.—The first day of King Alfonso's visit to Barcelona was unmarred by a single regrettable incident. True to their promise the Republicans and Separatists not only refrained from any hostile manifestations, but all classes among the people apparently joined in acclaiming the sovereign.

The king's day was one of remarkable activity. There was an imposing display of troops and police throughout the city, which, while testifying to the nervousness of the authorities, seemed to be out of place amid the numerous friendly demonstrations of the multitude. The king was greatly pleased at his enthusiastic reception, which he believes will have a marked effect in winning over the affections of the Catalonians.

Among the notable features of the day was a grand reception at the residence of Captain General Linares, followed by a dinner in honor of the officers of the Austrian warships lying in the harbor. At the conclusion of the dinner, King Alfonso, accompanied by a mounted escort, proceeded to the opera house to attend a gala performance. The theater was crowded, and the seats and boxes commanded fabulous prices. Time and again the king was compelled to bow his acknowledgements to applause and cheers that greeted him.

The program for tomorrow has not been published, but it is known that the king will visit the Austrian warships and the new technical school.

At the close of the performance, about midnight, the French consul presented to the king the Moroccan minister of foreign affairs, who is on his way to Madrid, after which the king drove in his automobile to the palace of the captain general, throngs along the avenue cheering him all the while.

UNCLE SAM TO RAISE BARS

Naturalization Papers Will Cost $10 After July Next.

WASHINGTON, March 10.—The House and Senate committees on action taken today by the House committee on immigration and naturalization in reporting the Barnett bill, ... instead of $5 after July 1 ... a foreigner to become a citizen of the United States. So great has become the bulk of naturalization work, especially in centers such as New York, Boston, Philadelphia and Chicago that the discovery has been made that the lawful fees are insufficient to cover the actual cost of the work, and as a result, some of the courts have practically refused to have anything to do with the business.

WILL BANQUET BRYAN

Democratic Leader to Attend Club Dinner in Denver.

DENVER, Colo., March 10.—William J. Bryan has accepted an invitation to be the guest of the Bryan club of this city at a banquet here on April 6, next. The banquet will be given in the large dining room of the El Jebel temple and it is expected that 1,000 diners will attend.

WILL WELCOME EVANS' FLEET

Officials of San Diego Charter a Steamer to Meet Squadron at Magdalena.

SAN DIEGO, Cal., March 10.—The steamer St. Denis, chartered by the fleet reception committee, sailed tonight with members of the committee to carry San Diego's welcome to Admiral Evans and his men at Magdalena.

Mayor Forward, President Collier of the chamber of commerce and Senator Wright, chairman of the invitation committee represented the city. The Los Angeles reception committee, newspaper men of Los Angeles and San Diego went as guests of the local committee. They expect to reach Magdalena Friday morning.

The cruiser Albany of the second squadron of the Pacific fleet arrived this afternoon from Magdalena bay for a stay of two or three days. The remainder of the squadron under the command of Rear Admiral Swinburne, the Charleston, St. Louis, Milwaukee, Perry and Preble, have left Magdalena bay and will go directly north.

The only vessel now at Magdalena is the cruiser California, which will come north this week, and the South Dakota and Buffalo, which will remain until the battleship fleet arrives.

MAY BUY SUGAR PLANT

REED SAID TO HAVE OPTION ON GRAND JUNCTION FACTORY.

French Capital Believed to Be Interested in Deal Involving $1,250,000.

Verner Z. Reed is negotiating for the purchase of the sugar factory at Grand Junction owned by the Western Sugar and Land company of this city, according to rumor. The report to the effect that he has secured an option on the entire Grand Junction holdings of the company for himself and French capitalists reached this city yesterday. It was given color by the fact that Mr. Reed is at present in conference with President R. P. Davie and Vice President J. R. McKinnie at Grand Junction. Mr. McKinnie and Mr. Davie left this city yesterday for the western slope, this being Mr. Davie's second trip to the sugar factory there within the last week.

Plant Has Fine Record.

The sugar factory, together with the 5,000 acres of land of the Grand Valley owned by the company, is valued at $1,250,000. The plant has a capacity of 600 tons a day, but through last season's run, lasting 120 days, maintained a daily average of 650 tons, its total tonnage being 77,000 tons. The season's output was 150,000 100-pound bags of sugar, which would have a value at the factory of between $750,000 and $800,000. It is reported that the company's earnings for the year 1907 was $200,000.

The Grand Junction sugar factory, which began operations in 1899, was the first of its kind erected in this state. In the construction of the factory and the introduction of beet sugar in this state J. R. McKinnie was the pioneer of this great industry. For the first few years the plant had a hard struggle, but of late years

MISSIONARIES CONVENE

CONVENTON IN PITTSBURG HAS 3,500 DELEGATES.

Represents a World Movement in Which 14,000,000 Are Interested.

PITTSBURG, Pa., March 10.—With 3,500 persons actively participating, half of that number being delegates from all parts of the world, the first international convention of the Young Peoples' Missionary movement convened here today in the music hall of the Pittsburg exposition. The convention represents 14,000,000 persons and is one of the largest gatherings of the kind ever held.

At a session held tonight in Exposition hall, three miles of moving pictures illustrating the missionary fields of the world were shown for the first time. At Old City hall and several churches throughout the city overflow meetings were held. The meetings today were very enthusiastic. The devotional exercises were in charge of Rev. John Willis Baer, president of the Occidental college, Los Angeles, who will also preside during the convention.

Addresses were made by C. C. Michener of New York, general secretary of the Young Peoples' Missionary movement of the United States and Canada; Rev. James I. Vance, Newark, N. J., on the "Resurrection" and on the foreign missionary movement by Kenneth MacLennan, Great Britain, Rev. J. Gerdon, Korea, and Rev. H. Ewing, India.

TO DEFEND COAST

LOS ANGELES, CAL., March 10.—The recent activity of army and navy engineers along the southern California coast indicates preparations for an elaborate system of coast defense, involving the location of signal stations on the five islands lying off San Pedro and Santa Monica bays. A signal station has been established on the highest point of Santa Catalina island.

WARSHIPS HAVE BAD DEFECTS

CAPTAIN WINSLOW CRITICISES AMERICAN FLEET

ARMOR PLATE IS TOO LOW

ALL OF EVANS' FLEET ARE DEFECTIVE.

HE DEFENDS ROJESTVENSKY

Says Russian Admiral Was Forced to Load Heavily With Coal, and This Brought Armor Too Far Under the Water Line.

WASHINGTON, March 10.—That there are serious defects in the construction of American battleships was charged today by Captain C. McR. Winslow, assistant chief of the bureau of navigation of the navy department, and Commander A. L. Key, former naval aide to President Roosevelt. The former officer said the ships under Admiral Evans were all over-drafted when they left Hampton Roads. He defended Admiral Rojestvensky for taking the Russian ships into battle with the Japanese with full bunkers of coal, saying that the Russian commander could not have done otherwise, for he did not know how far he would be compelled to steam.

Armor Belt Too Low.

Commander Key attempted to direct the form of his own testimony and incurred the displeasure of the committee on that account. He criticised the armor belt and the gun decks as being too low, and the ammunition hoists as unsafe. He attempted to dispute the testimony of other officers, especially Chief Constructor Capps, but was not permitted to do so. Finally the committee held an executive session, at which it was decided that Key should be heard tomorrow, but that his criticism should be confined to ships, and not directed against officers.

Defends Rojestvensky.

Captain Winslow, who was the first witness, in defending the Russian admiral, used the fate of the Russian fleet as an illustration of the danger of going into action with the armor belt too far under water. At the same time he said that the ships should carry at least two-thirds their capacity of coal and full ammunition and stores. He said that two-thirds supply of all matter would make all American battleships too low, and, therefore, the armor belts should be raised. He could not state the exact amount, as he said it would vary on the different ships.

Comparison With Britain.

The witness was asked to compare certain types of American ships with the contemporary class of British ships. He took the Connecticut and the Lord Nelson, and in gunnery said the British ship had made better records for rapid shooting with her battery of 12 guns than had been made with the Connecticut's 8-inch guns. He thought this achievement was due probably to the hoists.

"On what ships now under command of Admiral Evans is the armor belt misplaced?" asked Mr. Burrows.

"All of them."

"Misplaced because it is too low?"

"Because it is too low."

Continuing, Captain Winslow said that the armor belt extended seven feet below water on all of the ships in Admiral Evans' fleet when it left Hampton Roads, and most of them showed less than a foot of armor above the water line. He said that with two-thirds supply of coal and two-thirds of all other stores on board, the armor belt of all the American battleships would be too far below the water line.

"This would be the condition in which the ships would go into battle," he said.

In reply to questions by Mr. Tillman, the witness said he never had written

EVELYN THAW WANTS DIVORCE

SAYS HARRY WAS INSANE WHEN HE MARRIED HER.

HUSBAND TO CONTEST SUIT

MAY RESULT IN PROVING THAW SANE.

THE YOUNG WIFE HAS FUNDS

Attorneys for Mrs. William Thaw Say She Is Not a Party to Suit and Never Used Detectives to Spy Upon Her Daughter.

NEW YORK, March 10. — Evelyn Nesbit Thaw tomorrow will institute proceedings for the annulment of her marriage to Harry K. Thaw. The action will be based on the allegation that the defendant was insane when the union was contracted. Thaw purposes to defend the suit. The papers in the case will be served some time tomorrow and an early trial is expected. In the meantime the two by mutual agreement will remain apart.

In official statements by counsel for both parties tonight was confirmed the long suspected culmination in the wedded lives of Stanford White's slayer and the woman whose story in his defense brought her an unhappy notoriety as wide as the reading world. For weeks it had been gossiped that a divorce was imminent and even during Thaw's last trial, throughout which his wife stood gamely by him, it was pretty generally believed that whatever the outcome for the prisoner, the two would never again live together. These reports were frequently based upon rumored opposition to the young woman on the part of the Thaw family. In their statements tonight, however, counsel denied that Mrs. William Thaw, Harry's mother, had taken any part in the proposed separation.

No Detectives Employed.

During today Colonel Franklin Bartlett, counsel for the elder Mrs. Thaw, made a statement in which he said there was no truth in the reports that detectives employed by Mrs. William Thaw had her daughter-in-law under surveillance for months. As to a possible separation, Colonel Bartlett said:

"The matter is inchoate. There is every disposition on the part of my clients to be absolutely fair and just toward Evelyn Thaw and to make liberal provision for her support and even more than that. Harry K. Thaw has sought a reconciliation and has not desired that his wife should leave him but she desires a permanent separation. Any thought of espionage upon the young Mrs. Thaw would be abhorrent to Mrs. William Thaw and has not at any time been entertained by her."

Soon after Colonel Bartlett's interview became public, A. Russell Peabody, personal counsel to Thaw left for Matteawan, where since his last trial Thaw has been confined in the asylum for the criminal insane. After a talk with his client, Mr. Peabody returned to the city late today and by appointment met Daniel O'Reilly, one of Thaw's former attorneys, who is now counsel for Evelyn Thaw. The conference extended well into the evening and at its conclusion Mr. O'Reilly said:

On the Grounds of Insanity.

"Papers will be served on Mr. Peabody tomorrow by me as counsel for Evelyn Thaw in an action for annulment of the marriage. The action will be on the ground that at the time of the marriage Harry Thaw was insane and did not know what he was doing.

"This action has been thought of for some time. It will be tried in New York county. As yet no mention has been made of any settlement in favor of Evelyn. If after the annulment proceedings are through and they are in

Speaker Cannon Indorses Brooks

Speaker's Room, House of Representatives, Washington, D. C., March 5, 1908.

Dear Sir: I have your letter of February 28 and am glad to hear from you. Replying to your question regarding the esteem in which the Hon. Franklin E. Brooks of your state was held while here, I can say that he was one of the most efficient members of the House of Representatives during his term of service. It was also a matter of sincere regret, on the part of his colleagues, when Mr. Brooks retired from public life.

I am, as ever, with respect, etc.

Yours truly,

the House of Representatives, there would be no possible question of the result. Associated on the same great committee with you, as I was during your entire service here, I know more about the work you did, perhaps, than many others. And I should like to say that, in case there is any question as to your record here, I should be only too happy to answer any questions which either your friends or your opponents may care to ask.

By the way, remembering that you were the originator, the author and finisher of the horse breeding experiment (which you literally forced into the appropriation bill over the dead bodies of the chairman and several others) you may be interested to know that the present bill carries the same appropriation as last year for the continuation of the work. The bill makes proper provision also for carrying forward the sugar beet work and the dry farming demonstrations, in all of which you were so greatly interested, and which your effective advocacy did so much to get started. Incidentally, also, through the advocacy of your successor, Colonel Cook, the bill carries an appropriation for the re-establishing the weather station on Pikes Peak.

The bill will probably come before the House next week and I must say that I should feel a great deal easier in my mind if you were here to help me fight it through. All kinds of good luck to you in your present battle.

Faithfully yours,
CHARLES F. SCOTT.

Brooks Always Alert.

House of Representatives, U. S. Washington, D. C.

Corinth, Miss., Sept. 18, 1907.

Mr. D. [illegible] Walters, Box 227, Colorado City, Colo.

My Dear Sir:—I understand that my friend, Hon. F. E. Brooks, is a candidate for the Republican nomination for the United States Senate. If Colorado is to have a Republican in the Senate I hope Mr. Brooks will be elected. Being a Democrat, I am desirous of course, to [illegible] Teller returned to the Senate, and I sincerely hope that the good [illegible] of Colorado will not make [illegible] and Teller's career by sending him down [illegible] but that they will continue to utilize his great usefulness, extensive knowledge and wide influence by reelecting him to succeed himself. However, if the state determines to set aside him and all other Democrats, and elect a Republican, then, as stated above, I would be glad to see Mr. Brooks elected.

I served with him on the committee on agriculture last year and there was no more faithful, efficient and energetic member on that committee. He was always wide awake and alert in reference to everything involving the interest of Colorado and the west. He was recognized as a man of superior ability by every member of the committee, and especially by the chairman, who often times referred important questions to him for report to the full committee and with the request that he draw up such provisions or amendments to such legislation as was being considered to cover the question thus referred to him. He was equally active on the floor of the House in looking after every interest of the state as well as those matters involving the welfare of the country at large from his standpoint as a Republican.

Washington, D. C., Feb. [illegible]

Mr. W. P. Bogardus, Colorado Springs, Colo.

Dear Mr. Bogardus: I learn that my friend, Hon. Franklin E. Brooks, is a candidate for the Senate in Colorado, and that you are living in Colorado Springs.

I wish to say that Mr. Brooks, when he was a representative in Congress, served on the committee on agriculture, and thus I was brought into more intimate relations with him than I probably would otherwise. He was one of the most indefatigable workers, especially for the interests of his state, that there was on that important committee, and, what is more, he succeeded in a wonderful way, to such an extent that it was a matter of comment generally over the House. A large number of members regretted his not coming back. From my relations with him and personal contact, which resulted on the committee, I believe him to be a thoroughly honorable and upright man, exceedingly industrious and, besides that, intelligent, a man of reading and culture, but in touch with the masses of the people, and, in my humble judgment, Colorado has not always been fortunate in some respects in the selection of her senators. I believe in Mr. Brooks the people here in Washington would recognize the desirable manly qualities, as well as ability, which a senator ought to possess, and I believe you would be doing well for the Republican party in the state to do whatever you could to assist him.

Yours sincerely,
JOSEPH V. GRAFF.

has been highly successful and is now one of the leading factories in the state and the only one on the western slope.

French Capital Interested.

When Mr. Reed returned to Colorado last fall after an absence of several years, it was announced that he probably would bring to the state millions of dollars of French money for investment, it being generally understood that he was backed by a number of Paris capitalists. While he has been interested in the Western Sugar and Land company as one of the largest bond holders, it is thought, that his securing of an option on the plant is the first step in the investment of this French capital. Mr. Reed is well known in Colorado as the man who conducted the negotiations for the sale of Stratton's Independence mine to the Venture Corporation of London, for $11,000,000, for which he secured $1,000,000 as a commission.

E. C. Sharer, secretary treasurer of the Western Sugar and Land company, last night stated that he had not heard of the reported negotiations, but said that Mr. Reed, Mr. Davis and Mr. McKinnie are at present in Grand Junction, the object of their meeting being unknown to him.

eight margin. Although the definite figures as to the amount of stock voted will not be known until this evening, it is [illegible] the total amount will probably run between [illegible] and [illegible] shares. On this basis, the Burris forces claim victory, with their strength running somewhere between [illegible] shares. On the number of proxies Burris easily has a majority, as he has the support of a host of small stockholders, while the Bernard faction has placed its reliance on large holders, some of which there are [illegible] have been brought over to his side. The revival of the proxies is said to have brought forth a number of surprises.

Crisis Comes Today.

Awaiting the totaling of figures, the fight for the control of the company is at a standstill. At the adjourned meeting held yesterday afternoon at 2 o'clock, the committee reported that it had completed its work only as far as the [illegible] and that it would require another day. The meeting was accordingly adjourned to convene again today at 2 o'clock. At this time the struggle will reach its climax.

With the postponement of the voting through the necessity of awaiting for the report of the committee, each side has been exerting itself to strengthen its position.

Burris Still Confident.

Burris says that he is not worrying over the outcome. While he still refuses to divulge his strength or to announce his ticket, he declares that his position has been bettered by the outcome of Monday's meeting which threw to his support some of the Bernard and the "floating" stock. That he has received material assistance from the 140,000 shares controlled by Burris is patent.

"Ten days ago I had them beaten," he said yesterday. "They have been using the wealth of A. E. Carlton and the prestige of S. S. Bernard to unite a majority. At present, however, my following is solid for I have the backing of the small stockholders whom they cannot reach. I have been keeping close tab on the count, and thus far there has been less reviewing of my proxies than of Bernard's."

Close friends of Bernard state that the 80,000 shares held by Mrs. Lulu Bernard have been thrown to his side of the fight entirely unsolicited. Neither he nor his friends made any attempt to influence her action. It is said also that the 2,000 shares owned by Mrs. McGovney were turned to his support entirely independent of Mrs. Bernard's action. The two women are not close friends, and each acted on her own initiative, according to rumor.

Even should the present administration show strength sufficient to control the meeting, it is thought that Burris is planning other measures of carrying on the fight. He may have something else to spring if he finds himself beaten in a vote. That the fight may be taken to the courts is a probability. This, however, will probably be the last resort, as such action would involve the company in costly litigation.

James F. Burris, the belligerent factor at Monday's meeting, will not be present to lend a warlike atmosphere to the subsequent meetings. Burris probably will take up the role. Burns, with his attorney, Murat Masterson, has gone to Council Bluffs to attend the trial of the Portland tax suit brought by the state against the individual owners of Portland stock with the object of taxing each shareholder. The suit is being defended by the Portland company, but Mr. Burris, so he says, prefers to look after his own interests.

Having thrown his support to Burris, Burns has left him to fight out the battle. Howard Masterson is acting as a watcher during the work of the credentials committee, will also look after Burris' interests.

This bitter struggle for the control of the El Paso company and its $3,[illegible] holdings in the Cripple Creek district is proving one of the most interesting and exciting in the history of the Cripple Creek district. It is being watched with great interest by mining men throughout the state, and the outcome of today's vote is eagerly awaited.

It is claimed by the Bernard faction that Burris obtained his knowledge of the company's affairs through his previous connection with the company. For six months prior to the beginning of his fight, he is said to have had access to the books and correspondence of the company.

Excessive Drinking

Orrine Destroys the Craving for Drink. Sold Under Positive Guarantee.

Excessive or continued use of alcoholic beverages always results in diseased condition of the nervous system. The drinking man is often heard to say, "I can stop of my own free will and when I wish," but the poor fellow is now devoid of the power to act at the proper time, and in the right way. It's too late, the craving has secured a firm hold and because of the diseased nervous system he has not the ability for sustained effort. The result we all know.

Drunkenness is no longer considered a crime; eminent scientists and physicians have agreed that it is a disease and must be treated as such.

The home treatment that has been used for a number of years, and is highly successful, is Orrine. It is sold under a positive guarantee that if it does not effect a cure your money will be refunded.

Orrine is in two forms. When desiring to give secretly, purchase Orrine No. 1, and if the patient will voluntarily take the treatment, Orrine No. 2 should be given. The guarantee is the same in either case. Orrine costs but $1.00 per box. Mailed in plain sealed wrapper on receipt of price. Write for free treatise on "Drunkenness" mailed in sealed envelope by The Orrine Co., Washington, D. C. Sold by leading druggists everywhere and in this city by the D. Y. Butcher Drug Co.

WARSHIPS HAVE BAD DEFECTS

(Continued from Page One.)

the department concerning the defects he had found in battleship construction, but that he knew the faults had been pointed out by other officers. As to ammunition hoists, Captain Winslow said that it was not a question of direct hoists as against two-stage hoists, but entirely a question of safety.

"Well, have we got it?" asked Mr. Tillman.

The witness replied that we had not had safety in the past, but that he [illegible] the new [illegible] hoist with automatic shutters.

Captain Winslow gave his experience as a member of the board which inquired into the causes of the explosion of the Massachusetts in 1903. In that case it was found that the damage was due to the open turret and the ineffectiveness of the direct hoist.

"Naval officers had predicted that just such accidents would occur, and the fault should have been corrected then," said Captain Winslow.

"What officer had pointed out the danger?" asked Mr. Tillman.

Former Criticisms.

"In 1902 I received a personal letter from Commander Sims criticising the Kearsarge and the Kentucky and saying that there was great danger in the turrets," replied Captain Winslow. He added that this information had been given to the department. He said he did not know where to fix the responsibility for the failure to correct the fault, unless it was in the fact that there was constant change in the department through frequently shifting civilian secretaries.

Commander A. L. Key, formerly naval aide to the President, was the next witness. He began by stating that he had a duty to perform not entirely agreeable, as his testimony would not be approved at the navy department. He said he expected to show by comparison that there were defects in American ships as to the location of armor belts, the height of freeboard and the character of ammunition hoists, and that he would be compelled to point out inaccuracies in the testimony of Rear Admiral Capps, chief constructor, and some other officers who have been before the committee.

Chairman Hale told the witness that he need not waste time in criticising the statements of other officers nor in discussing defects in old types of ships, and instructed him to keep abreast of the times and follow the lines that had been laid down by the committee.

The witness took up the subject of armor belts. He said the belts should not be placed around a fictitious waterline, but should be located with regard to the actual line when a vessel is equipped for action. He criticised the speed tests of battleships and declared that the vessels run so light that the test is of no value in ascertaining the actual speed of a vessel when carrying full armament, crews and stores.

"Why should contractors be permitted to bamboozle the country with these fictitious speed tests?" asked Mr. Tillman.

"They should not. This is just what I have been trying to show," replied Commander Key.

WILL PLAY DENVER Y. M. C. A.

Springs Basketball Team Has Return Game Here on Saturday Night.

The fastest game of basketball that has been played in Colorado Springs this season is on the schedule for Saturday night of this week, when the local Y. M. C. A. will play a return game with the crack quintet from the Denver Y. M. C. A. The Denver team, which is practically the old Victor team which held the western championship during the seasons of 1904 and 1905, is one of the strongest in the west, playing clean, fast ball at all times.

In the game at Denver, two weeks ago, the locals lost by the narrow margin of 45 to 38. On their home floor, they expect to be more at an advantage. Captain George St. John will play left guard with A. T. Seehrist right guard; H. Schmidt, center; L. D. Reeke, left forward, and H. Steninger, right forward. H. Sinton is a substitute for center and M. S. Anderson for forward.

WHITE SOX WIN AND LOSE

Regulars Beat Oakland, but Frisco Gives Second Team Awful Drubbing.

SAN DIEGO, Cal., March 10.—The Chicago Americans won the second game of their series with Oakland today, the score being 7 to 2. Score:

Chicago	7	12	3
Oakland	2	11	2

Batteries: Owen, Smith, Altrock and Sullivan; Shaw, Butler and Lewis, Dashwood.

SAN FRANCISCO, March 10.—San Francisco administered a terrific drubbing to the Chicago Americans' No. 2 team today, the score being 13 to 2. The score:

	R.	H.	E.
San Francisco	13	18	1
Chicago	2	7	6

Batteries: Freeman, Manuel and Armbruster; Weaver, [illegible], Hoag, Stadimah, Gums and S. Hoag.

ALBANY MAKES RECORD

SAN DIEGO, Cal., March 10.—The Albany brought with her the trophy won at Magdalena bay for the highest target practice record ever made by a vessel of the American navy. With a target 12 by 21 feet and placed at a distance of 1,600 yards, the cruiser, steaming 10 knots per hour, scored 65 out of the first 66 shots made, and registered the majority of them in the bulls eyes. This was done with five-inch guns. Speed was a record-breaking feature. The shots were fired in sets of six, the fastest six being made in 25 seconds, and the slowest in 30 seconds.

The record was made under a peculiar disadvantage, the entire crew having been vaccinated only 10 days before when off the coast of Salvador.

BREAKS WORLD'S RECORD

NEW YORK, March 10.—F. N. Smithson, formerly of Ireland, running under the colors of the New York Athletic club, made a new world's record of 8 4-5 seconds over the 70-yards hurdles, at Madison Square Garden, tonight.

What Press Agents Say

"PAINTING THE TOWN."

The management of the Opera House announces for one night, next Friday, Charles H. Yale's "Painting the Town," with John F. Leonard and Will Holliday, two very funny comedians and Mazie King, queen of dancers as the two chief features. Miss King will be seen in Utopia or the Land of the Fancy which is said to be a $2,000.00 feature act and for which the vaudeville syndicates bid all kinds of money but which the Charles H. Yale Amusement company have seen fit to retain with Charles H. Yale's "Painting the Town" and for the exclusive benefit of its thousands of patrons, they having utterly failed to see an act that was anywhere near its worth to them.

James F. Leonard and Will Holliday, the two fun creators are also retained. Madeline Buckley and Lillian Herndon were specially engaged for their respective roles. There is a plot—but what is the use of alluding to its connection with a production whose aim is to make the people laugh and gaze in wonderment. It merely serves to hand the thread for scenic, musical and other entertaining events. Ask somebody who has seen it and then come yourself.

"BUSTER BROWN," MATINEE AND NIGHT

"Buster Brown's" address for next Saturday matinee and night will be the Opera House. This should prove a pleasant piece of information to the playgoers of all ages of Colorado Springs. Of all the musical comedies exploited in the past few seasons, none have met with such universal commendation and generous patronage as has been the lot of "Buster Brown." His admirers are legion and their ranks are apparently being added to. The play has been changed here and there, but it still retains the most conspicuous of the old characters in conjunction with whom some new ones have been introduced. In its current version the book has been brightened with crisp, snappy dialogue and the musical portion is made up of the class of air that compels humming. Master Rice continues to portray "Buster" in the manner that has endeared him to theater goers generally.

As the mischief loving youngster, Master Rice looks it and is it. According to the critics he fairly revels in the character and is a living realization of what one would imagine the cartoon "Buster" would be if it could be brought to life. "Tige," Buster's intelligent dog, still continues as chief aide in the perpetration of his many pranks. "Jack" Bell acts the role of the dog in most lifelike manner, and the character of the Irish cook is still in the keeping of Mamie Goodrich, who created it. Nellie V. Nichols, as Sussie Sweet, and dainty Leila Cantna, as "Mary Jane," are happily cast. Others in the company are Beatrice Flint, Lizzie Goode, Percy Walling, E. Coe Albertson, Roger Gray, George Yeoman and a chorus of forty. Scenically the production is brand new and the same applies to the costumes. None of the former specialties are retained, others of a higher class having been substituted, chief among which is the "Hughes Musical Trio," vaudeville headliners.

AT THE EMPIRE

Crowded houses continue at every performance at the Empire this week, the attraction being one of the best shows ever put on by Manager Ellis at the local playhouse. Every act is a distinct hit and keeps the audience at a high pitch of enthusiasm throughout the entire performance.

The feature of the program is the original newsboys' quartet, who were compelled to respond to encore after encore. Besides exceptionally good singing, this act is genuinely funny.

Jolly Zeb also made good with the audience in a monologue "stunt" far above the average. Zeb is a natural comedian and is a favorite on this week's bill.

The two Lawrences offer something unusual in the bagline line. Their act was highly entertaining. Altogether, the program is unusually good and is deserving of the patronage it is receiving.

GIVE LECTURE RECITAL

Perrin and Hale Play High-Class Music at Perkins Hall.

Henry F. Perrin, assisted by Dean Edward D. Hale of the Colorado College School of Music, gave a lecture recital at Perkins hall yesterday afternoon, from 5 to 6 o'clock. This was the first of a series of such recitals which Mr. Perrin and Dean Hale intend to give on Tuesday evenings at Perkins hall, at 5 o'clock.

Dean Hale played a series of tone pictures by Gade, the Danish composer, previous to which he gave a short talk on the composer and his influence over Grieg. Mr. Perrin followed with the Liszt arrangement of the Soiree de Vienne by Schubert. He spoke of the life work of Mme. Teresa Carreno, and of his personal reminiscences of Schwarwenka, Busoni, Ysaye, Moritz Rosenthal, Carreno and others.

At the next recital, Dean Hale will give a group of songs by Rubinstein, and Mr. Perrin will play selections by Xaver and Phillip Scharwenka, Rosenthal and others. At the meeting of the Sunshine club at the All Souls' church tomorrow evening, Mr. Perrin will also play.

Previous to his coming to this city Mr. Perrin spent a year in one of the conservatories in the south. He studied seven years in Germany, under Xaver Scharwenka in Berlin and Max Schwarz at the Raff conservatory at Frankfort. He appeared in Berlin at the American church on Easter Sunday, 1905, playing several selections on the pipe organ.

EVELYN THAW WANTS DIVORCE

(Continued From Page One.)

favor of the plaintiff some action might be taken for [illegible] counsel fees and alimony."

Mr. Peabody [illegible] O'Reilly's remarks [illegible]

"Today I h[illegible] teawait and told [illegible] his wife. He is [illegible] defend the suit."

Mr. Peabody added [illegible] when apprised of [illegible] had made no comment except to declare that he was [illegible] his marriage and [illegible] ness to meet the issue.

Asked whether Mrs. William Thaw was active in the [illegible] litigation, Mr. Peabody replied:

"No, she is not."

Will Contest Suit.

Mr. O'Reilly added to his formal statement that Evelyn would take the stand during the annulment proceedings and that several of the medical experts who had testified at the murder trail would also be called. He added that despite his announced determination to defend the suit he believed that Thaw would put no obstacles in the way of the separation if no other reason than the gratitude he felt toward his wife for the aid she rendered him when he was on trial for his life. As to his client's financial resources, O'Reilly said he thought she had funds enough to maintain her during the trial of the case and as for the future was capable of earning a large income as a writer.

Both lawyers emphatically denied that Evelyn had been followed by detectives or that she had made any demand upon her husband's mother for a money settlement.

It is understood that the attorneys for Mrs. Thaw will depend practically upon the evidence of insanity introduced at the last trial of Thaw to prove that he was mentally incompetent at the time to legally contract a marriage. Should this be established the case would be won for the plaintiff providing there was not introduced by the defense that Thaw subsequently recovered full possession of his faculties and by continuing the marriage relation gave validity to the original contract. This point the attorneys would not discuss tonight. It was, however, pointed out that Thaw, though committed to an insane asylum as having been insane at the time he killed White has not been declared insane at the present time. Whether the matter of his insanity will be determined before the trial for annulment is not known. If it is not there will be added interest in the probable effect of the present suit upon the later efforts to get Thaw out of the asylum.

PARIS, March 10.—In the fight in Morocco between French forces under General d'Amade and the Madrakas and Mzab tribesmen reported by the French commander yesterday, the French losses were one man killed and seven wounded. The enemy were routed and abandoned everything in their flight. The tribesmen continue to gather in large numbers on the Algerian frontier.

TURN YOUR FACE INTO DOLLARS

Many a Man Has Failed Because His Face Was a Picture of Calamity.

It takes sunshine to produce a rose, a perfect rose. And so man, to be successful, must have sunshine inside. The life which has it not, which has no health and no happiness, is sour, surly, pessimistic, and a failure. The world already has too many vinegar faces that breathe ill-will and strife. The world wants joy, comfort, sunshine, and will cling to the man who has it, who radiates gladness and triumph wherever he is and under all circumstances.

Some people have a genius for seeking out the disagreeable, the crooked, the bad and the ugly. These are the destroyers; they travel in schools, they herd together for they love their kind and the cheerful part of the world will have nothing to do with them.

And why is it that so many peddle disaster knowing at the same time that if they do, their lives will be ruined? Some people cannot help it, for pessimism usually comes from bodily disorders, and this can not always be prevented. The stomach, for instance, is the most common cause of discontent, sour face, recklessness, disgust and lack of ambition. A bad stomach—there is the secret of many a failure. Anyone can have a good stomach, a strong stomach, a stomach that can take care of anything and everything that is put into it, no matter whether it is a very bad stomach now or not. Then why not have it?

Stuart's Dyspepsia Tablets do this very thing. One ingredient of these little tablets digests 3,000 grains of food, and no matter how bad is your dyspepsia or indigestion, these tablets will digest everything in your stomach, thoroughly and completely, and better and quicker than a healthy stomach can do the same thing. Stuart's Dyspepsia Tablets will cure quickly loss of appetite, brash, irritation, heartburn, eructations, loss of vim and spirit, bad memory, and dyspepsia and indigestion in their very worst forms.

No other little tablets in the world can do so much. You should carry Stuart's Dyspepsia Tablets around with you wherever you go and take them after meals. Then only will you realize what it is to enjoy a meal, and what perfect digestion means. Your whole body and your mind will feel the effects; your vim will increase, you will be more satisfied with what the world does, you will think happier and be happier and your face will be one of supreme contentment. That will bring you success and then more success. Your face will bring you dollars. Try it. It will cost you just 50c for a package of these wonderful Stuart's Dyspepsia Tablets, at any drug store on earth.

Send us your name and address today and we will at once send you by mail a sample package free. Address F. A. Stuart Co., 150 Stuart Bldg., Marshall, Mich.

Fresh air and plenty of sunshine will lay a foundation for a constitution that will prepare the youngster for the strain that comes later in life. Babies are not as strong and sturdy as they used to be because they are hampered too much they don't get a chance to develop don't get out in the air enough. The simplest solution of the problem is a Whitney carriage or go-cart. This brand of baby vehicles is famous the world over. They are strong, light and easy running, besides being the most symmetrically built and superbly finished. We can show you every model of the season, and our prices range from $1.68 to $45.00.

SATURDAY IS THE LAST DAY

YOU CAN GET FREE TREATMENT FROM THE NEW YORK DOCTORS

All of this week the New York Doctors have been giving Free Treatments. That is to all who consulted them for treatment of any chronic disease, they would contract to treat them free for three months (medicine excepted). THEIR FREE TREATMENT OFFER CLOSES SATURDAY NIGHT. Also your examination will cost you nothing.

The New York Doctors are Specialists in Chronic Diseases of men, women and children. They are a standard institution, having been located here for five years and expect to stay here for a good many years more, as it has cost several thousands of dollars to establish such an institution and to equip it completely. The New York Doctors' offices are the most completely equipped in this vicinity, being composed of many expensive electrical and mechanical appliances. Drugs of the three schools of medicines are used by these doctors and furnished to each patient from their offices, so that the patient is not out extra money to buy his medicines from the drug store. However, these doctors depend more upon their office treatment for their [illegible] than [illegible] drugs. The best advice we can give you is to go and see for yourself. Consultation will cost you nothing, and after consulting them and learning how they would treat your case, if you are not satisfied that they are the doctors you want, you are under no obligations and do not have to take treatment unless you wish to.

Of the more common diseases which come under the care of the New York Doctors, consumption is probably in the lead. This disease is treated by the Improved French Transfusion Method. Stomach troubles are a close second, with nervous diseases, skin diseases peculiar to women, next. It is seldom necessary to operate or use the knife at all in diseases of women. Goiters, tumors and other growths are removed often without taking very much medicine internally. St. Vitus dance and other diseases of children, especially nose and throat affections, are cases which need special attention, and these doctors are thoroughly equipped and competent to treat them to a successful termination. Liver, bowel and kidney troubles are quite common, and these doctors have cured a great many people suffering from these diseases.

Their offices are 3rd Colorado Building, and their hours are from 9 a. m. to 8 p. m.

APPROPRIATIONS $900,000,00

Less Money to Be Spent This Year Than in 1907.

WASHINGTON, March 10.—At the White House today, Representative Tawney, chairman of the House committee on appropriation, who had called on the President at the latter's request to discuss legislation, expressed the opinion that the appropriations of Congress at this session would be kept within $913,000,000 exclusive of appropriations for battleships. If there are two new battleships, he said, the total would be about $930,000,000, and if there are four battleships the total will reach $940,000,000.

The total appropriations in the last Congress, he pointed out, were about $920,000,000, and it was hoped to reduce the appropriations this year about $20,111,000.

BROOKS CAN BE ELECTED—HAMLIN CAN'T.

As a matter of [illegible] pride—[illegible] communities [illegible] El Paso county [illegible] Colorado Springs man to the United States [illegible] highly desirable. This [illegible] Mr. Brooks [illegible] of Mr. Hamlin. All [illegible] want the [illegible] El Paso [illegible] is [illegible] name. There is only one El Paso man that can be elected, and that man is Franklin E. Brooks.

[illegible]

has not a ghost of a chance [illegible]

[illegible]

BROOKS IS A WINNING CANDIDATE [illegible]

[illegible]

Mr. Brooks has been tried and tested by hard experience and he has never yet been found wanting. His colleagues [illegible] whom he [illegible] of his duties [illegible] indomitable energy [illegible] and his [illegible] Speaker Cannon than whom [illegible] declared [illegible] that he was one of the most efficient members of the House of Representatives during his term of service. [illegible] who served with him [illegible] than the [illegible] attack it. [illegible] but they [illegible] wholly [illegible]

This record [illegible] well known [illegible] every other county in the state [illegible] Let the Republican party [illegible] voters will Mr. Brooks as its candidate and victory is certain. But with Mr. Hamlin as its standard bearer it would have to continually answer the question, "Who is he?" [illegible] disheartening thing to go into a campaign with a candidate so utterly colorless that even his name is unknown to the people. The fight would be lost almost before it had begun.

Keep this vital point in mind. If Brooks wins [illegible] the primaries he will be defeated in the Legislature, and El Paso County will lose the Senatorship.

HUMANITY IN WARFARE.

THIS dispatch from Berlin appeared in the papers a few days ago:

BERLIN, March 4—Apart from the losses suffered in fighting and by disease the recent German war in East Africa caused the deaths of 75,000 natives from starvation. This statement was made by Colonial Secretary Dernburg in the course of the debate on the colonial budget in the Reichstag. He explained that the troops were compelled to seize all supplies, either to feed the soldiers or weaken the enemy, with the result that 75,000 natives starved to death.

Everybody remembers what a tremendous [illegible] was raised in this country a few years ago [illegible] of the "atrocities" committed by American soldiers in the Philippines. Investigation pretty [illegible] the fact that the alleged cruel [illegible] and conditions of warfare. Our forces were not fighting a civilized enemy in Samar and the other islands from whence complaint was made; they were fighting a foe as crafty and as merciless as Apache Indians, and as a measure of self preservation were compelled to resort to methods which would rightfully have been considered barbarous in civilized warfare.

But they never adopted the means which according to the above dispatch have been used by the Germans to pacify their East African [illegible]. The systematic starvation of an entire population is an up-to-date idea that would hardly find favor in America however popular it may be in Germany.

After thinking it over for four [illegible] The Telegraph has at last come forward with a lame explanation of its inconsistency in commending Franklin E. Brooks enthusiastically on the occasion of his retirement from the House and abusing him [illegible] now. [illegible]

THE PARCELS POST

An interesting article in the March number of the North American Review, George V. L. Meyer, the postmaster general, advocates the establishment of a parcels post. He sets forth the conditions under which such a post is carried on in Great Britain, Germany, France, Italy, Austria and some other countries, and offers figures to show that financially the institution of a parcels post in the United States would rest upon a safe basis. The advantages to the residents of rural districts of such a method of transporting parcels are dwelt upon, and certain objections to the proposed addition to the postal service—such as that a parcels post would promote the interests of the large mail-order houses at the expense of local dealers—are examined and answered. The postmaster-general says:

Recent reports from 4,000 postoffices show that the average weight of fourth-class matter [illegible] handled was one-third of a pound, although the weight limit is four pounds. It should be borne in mind [illegible] distinction between express and [illegible] parcels post in this country because postal [illegible] practically not delivered except when the [illegible] is light. Under the present postal regulations where the [illegible] is large or heavy [illegible] to the addressee to call for it. In the case of [illegible] delivery the parcels of course would be [illegible] to the rural boxes by the carriers as is now the practice.

In illustration of the misunderstanding which exists as to what the proposed legislation would do in the way of altering the postal laws and regulations I am glad to have this opportunity of inviting attention to the fact that a resolution of Richmond Commercial club, of Richmond, Indiana, appeared in the Congressional Record of January [illegible] to the effect that "a certain mail-order house will save $40,000 a year alone on mailing their catalogue by this reduction." Similar statements have been made in various parts of the country. There need be no fear of this, for catalogues are classified as third-class matter and are mailable today at 8 cents a pound. The proposed parcels post rates do not affect them in any way.

WHITEHEAD WAS MISTAKEN

Explains Telegraph Interview and Says Brooks Does Not Know Johnson.

In an attempt to reflect upon I. L. Johnson, who received a letter from Speaker Cannon, of the House of Representatives in praise of Franklin E. Brooks, The Telegraph last night printed an interview with Mr. Johnson's father-in-law, B. Whitehead. The purpose was to discredit the statement in yesterday's Gazette to the effect that Mr. Johnson did not know Mr. Brooks. Mr. Whitehead later found that he had not correctly understood the situation, and called up The Telegraph only to be informed that the man with whom he had previously talked was out. He later went to The Telegraph office to correct the statement, but it was then too late to prevent its appearance in the evening paper. Following is a statement made last night by Mr. Whitehead:

Whitehead's Statement.

When I spoke to a Telegraph reporter this morning I supposed that Mr. Johnson was acquainted with Mr. Brooks. He is my son-in-law and has been associated with me in the grocery business at 126 North Nevada [illegible] for [illegible] 12 years. Mr. Brooks, who lives at 1324 North Nevada, [illegible] business with me many years, and I naturally supposed that [illegible] the time had met Mr. Johnson. In speaking to Mr. Johnson later I found that while he knows Mr. Brooks in the same way that hundreds of people know a public man, Mr. Brooks does not know him. Mr. Johnson had never been introduced to Mr. Brooks and never had any business dealings with him, as I [illegible] [illegible] to correct the article in The Telegraph. B. WHITEHEAD.

I tell everybody about this cough medicine." For sale by all druggists.

GIDDINGS OPENING.

The spring opening at Giddings Brothers' store yesterday afternoon resembled a stylish home reception. As the day was most beautiful, the ladies had donned their prettiest street toilets and the scene was an interesting one. The opening will be continued this afternoon and it is altogether probable that the crowd in attendance will even exceed that of yesterday.

The original and charming decorative effect on the first floor, attained by the graceful circles and festoons of imitation pink Japanese rice roses, and the suggestions of Easter in the floral design, called forth great admiration. Wild southern smilax and palms were selected for the decorations of the second floor and formed an admirable setting for the splendid display of exclusive millinery and gowns.

In evidence were reproductions of the latest Parisian models which, in the full dress hats, are perfect marvels of the art of combining the bright colors, flowers, foliage, plumes, tulle, velvet, etc. In the tailored hats, too, much latitude is given in profusion of trimming for the high crowned, broad sailor styles or the smaller Spanish turban shapes.

All tastes had been consulted in the selections of the exquisite evening gowns and wraps as well as the tailor suits and coats for street use. In every department there were smart showings and the well selected stock is remarkable for its completeness.

Knots of fragrant violets were the souvenirs selected for distribution to those attending the reception and there was an enormous supply provided. But the demand was so great that by the middle of the afternoon there were no more in town available, so late comers were doomed to disappointment.

READY FOR CONVENTION

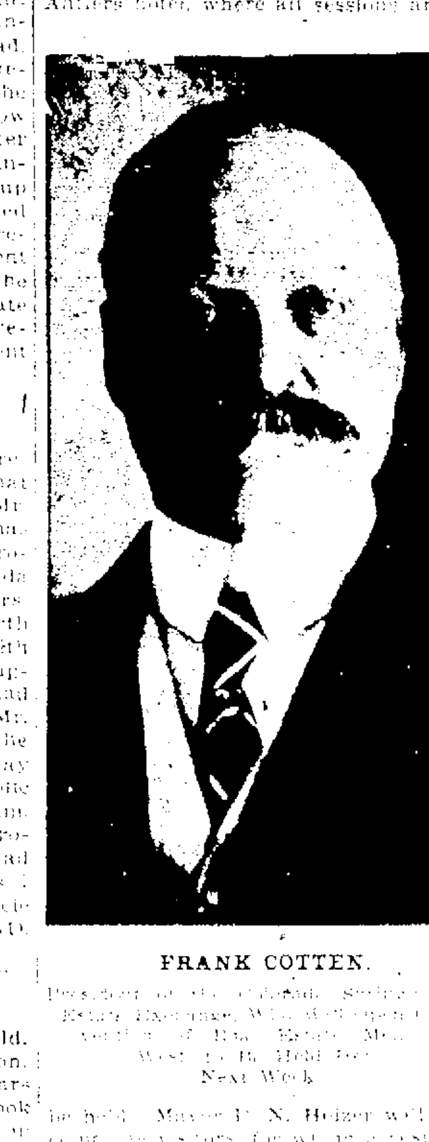

REAL ESTATE EXCHANGE MAPS OUT PROGRAM.

Visitors Will Be Taken to Principal Points of Interest in This Region.

Plans for the entertainment of delegates to the big real estate convention to be held in this city, March 20 and 21, were arranged last night at the regular monthly meeting of the Colorado Springs Real Estate exchange, in the Alta Vista hotel. Five hundred prominent realty dealers from the principal cities and towns of Colorado, Utah and New Mexico, particularly the territory tributary to the Denver & Rio Grande system, will attend the meeting. It has for its object the formation of an organization to be known as the Colorado Real Estate association or the Rocky Mountain Real Estate association, for the advancement of realty interests of this section of the country and for the benefit and protection of its members.

Prominent Men to Speak.

Frank Cotten, president of the Colorado Springs Real Estate exchange, will open the convention Friday morning, March 20, at 10:30 o'clock, at the Antlers hotel, where all sessions are to

Kavalec of La Jara.

At the close of the business session a banquet and smoker will be given at the Antlers hotel, Friday evening.

Will See the Sights.

Saturday will be devoted to the entertainment of the delegates and their ladies. They are to view the city and the various points of interest by trips in chartered street cars and carriages. A feature of the day's outing will be a trip to Cripple Creek over the Short Line and returning through Ute Pass over the Colorado Midland.

Expenses of the convention are to be met by a special assessment, which the Colorado Springs exchange has voted to levy upon each of its members. Other business men and citizens will not be asked to contribute.

The committee on arrangements comprises A. P. Martin, Charles Wright, G. W. Goodrich, Harry A. Seurr and E. A. Steckel.

Rank Foolishness.

"When attacked by a cough or a cold, or when your throat is sore, it is rank foolishness to take any other medicine than Dr. King's New Discovery," says C. O. Eldridge of Empire, Ga. House Furnishings at Low Prices

Our immense new stock direct from the largest and most important factories—afford everyone fitting up a house a real opportunity to secure choice selections at minimum prices. As our entire stock of furniture is personally selected at the factories by our Mr. Tucker, and sent direct from the factories to our store in carload lots, and handled at our stores by an economical system, every cent of expense and cost is reduced to the minimum. We are therefore able and actually do offer high grade furniture at less prices than the same grade of furniture can be bought in the big cities of the country. Our facilities for securing goods from the factories are equal to any store in Chicago or elsewhere, while our expenses are less. We hope to make this a record year by increase of business, and mark prices accordingly. Visitors are always welcome.

MAY WHEAT DECLINES THREE CENTS ON HEAVY SALES.

Government Report of Farm Reserves Leaves Dealers in Doubt and Favors the Bears.

CHICAGO, March 10.—Wheat for May [illegible] declined nearly 3 cents per bushel today as a result of heavy sales by some of the leading longs. At the close [illegible] net loss for the day was 2[illegible]. Corn was [illegible]. Oats were [illegible] higher. Provisions [illegible].

The wheat market was very nervous all day. The government report of farm reserves left traders in an undecided mind, but the prevailing opinions seemed to be that the report was an aid to the bears. The market slumped sharply during the [illegible] on quite general profit-taking, but soon rallied along with corn [illegible] commission houses and [illegible] were liberal, and prices [illegible]. The market was [illegible] weakness of foreign markets and by excellent weather [illegible] for the fall sown crop. [illegible] extremely bearish during the last hour because of active selling [illegible] the May delivery being [illegible]. The market closed weak [illegible] bottom price. May opened [illegible] higher, at 90⅜ to 90¾, sold [illegible] and closed at 89[illegible]. Clearances of wheat and flour were equal to [illegible] bushels. The world's visible supply [illegible] on the same [illegible]. Minneapolis, Duluth and [illegible] receipts of [illegible] cars, [illegible] last week and [illegible] one year ago.

The corn market was strong all day [illegible] shorts and commission houses. Small farm reserves, firm cables [illegible] were the main reasons [illegible]. The market weakened [illegible] with wheat, but [illegible]. May opened [illegible] and closed at [illegible]. The [illegible] was [illegible] receipts were 160 cars, [illegible] grade. [illegible]

STRONG MEN CONTROL

MANIPULATION BY LEADERS EVIDENT IN STOCKS.

Outlook for Higher Prices Hopeful Under Direction of Skillful Speculative Interests.

NEW YORK, March 10.—There were continued signs in today's stock market of the exercise of a benevolent control by skillful and other resourceful speculative leaders keeping it within the description of a professional market. The selling to realize profits was one a more liberal scale than yesterday, and the resulting reaction in prices was more pronounced. The growing dullness of the operations as prices receded below last night's closing level indicated the strength of the holders and their unwillingness to forego their profits. The extent to which profit taking has been achieved and the reduction in the short interest which has gone hand in hand with the movement result in a technical position favorable for reaction. It is a well-known device of the best known speculative leaders who have conducted great movements in the market to vary a movement with reactions, digest their own profits from time to time in that way and at the same time shake off a weak speculative following which is a burden on the market in the event of the development of any untoward circumstances. The rise in prices from the low points of last week during the dull period of which the accumulation was affected from which the rise started had reached from 5 to 10 points at the extreme of the additional advances in today's early trading. Of the rumors which have developed and helped along the advance there was some revision of opinion with the realization of the unsubstantial fabric of which they are composed. This was notably true of those dealing with supposed political bargains which were to make opportunities for active speculation.

When prices ceased to go up most of these stories dropped out of view. On a more substantial basis was the impression brought away from Washington by delegations carried there by anxiety over the scope of proposed measures for the restriction of activities on the exchanges of the country, including stocks, cotton and grains. Less fear was expressed by these delegations of any interference with the methods affecting the exchanges of the country as a result of their personal contact with the authorities in Washington. Some buying for London account was a factor in the absorptive power of the market. The subtreasury figures, showing a cash net gain for the day's operations of $7,338,000, reflected the turning over of government deposits by the banks in response to the call of the secretary of the treasury. The effect on the money market was not appreciable. The easing condition of the money situation and the encouraging strength that was beginning to be shown in the stock market have raised expectations that early announcements might be forthcoming of intended plans of financing by the large corporations. The [illegible] in the speculation which views the rise in prices at this time with distrust [illegible] one ground of suspicion that the [illegible] is [illegible] to manipulation [illegible] these reported flotations. With the [illegible] final [illegible] some [illegible] declines [illegible] movement [illegible] exceedingly irregular.

Bonds were irregular. Total sales, par value, $2,090,000. United States bonds were unchanged on call.

HEMORRHOIDS SORES AND ECZEMA

Accompanied by Terrible Itching—A Complicated and Most Distressing Case—Well-known Remedies Failed to Cure—Doctor Thought an Operation Necessary—Then

CUTICURA PROVED ITS WONDERFUL EFFICACY

"I am now eighty years old and one morning, three years ago, I was taken with a hard pain in my right side. In two days I had an attack of piles (hemorrhoids), bleeding and protruding. The doctor gave me some medicine and an ointment for them which helped me some but I had to keep using them all the time. Then I changed to the P—— remedy; but if I did not use it every day, I would get worse. The doctor said the only help for me was to go to a hospital and be operated on. At this time, about a year ago, I went to using the S—— remedies. I tried them for four or five months but did not get much help for my piles. During this time sores would come on a fleshy part of my body. They bothered me all the time. I would get one healed and another would come. These sores changed to eczema accompanied by a terrible itching. It seemed as if I could not keep my hands from tearing my flesh. This and the pile trouble brought on an inflamed condition. Then I got the Cuticura Remedies. I washed the affected parts with Cuticura Soap and warm water in the morning, at noon, and at night, then used Cuticura Ointment on the irritated surfaces and injected a quantity of Cuticura Ointment with a Cuticura Suppository Syringe. I also took Cuticura Resolvent Pills three times a day. It took a month of this treatment to get me in a fairly healthy state and then I treated myself once a day for three months and, after that, once or twice a week. It is fortunate that I used Cuticura. The treatments I had tried took a lot of money that I would have saved by using Cuticura Remedies sooner, but I am wiser now. I am supplied with a full set of the Cuticura Remedies and would not feel safe without them. J. H. Henderson, Hopkinton, St. Lawrence Co., N. Y., Apr. 26, 1907."

Complete External and Internal Treatment for Every Humour of Infants, Children, and Adults consists of Cuticura Soap (25c.) to Cleanse the Skin, Cuticura Ointment (50c.) to Heal the Skin, and Cuticura Resolvent (50c.), (or in the form of Chocolate Coated Pills 25c. per vial of 60) to Purify the Blood. STRATTON MILL READY

COST $250,000 AND TREATS 6,500 TONS MONTHLY.

Will Be Opened on Sunday and Occasion Will Be Celebrated by Mining Men.

Special to The Gazette.

CRIPPLE CREEK, March 10.—It is now expected that the new Stratton's Independence cyanide mill, which has been erected on the company's property on Wilson creek, will be ready to treat the low grade ore from the old mine dump and [illegible] March 15. This plant has been built at a cost of about $250,000 and will have a monthly capacity of 6,500 [illegible]. It is believed that [illegible] custom [illegible] the entire capacity [illegible] utilized to treat [illegible]

A few days ago [illegible] the presence of [illegible] expert mill and [illegible]. The crushers and [illegible] were put through a thorough test and 150 tons [illegible] the daily capacity of [illegible] plant was run through [illegible]

The big mill with [illegible] bunding and [illegible] is ready to begin [illegible] management [illegible] ground and they are now [illegible] as rapidly as [illegible] the first place.

It has been [illegible] announced that nothing can now prevent the formal starting of the mill on next Sunday, and it is further stated that a number of prominent mining and mill men [illegible] Cripple Creek district, [illegible] Springs and Denver will be invited to be present at the formal commencement of work.

It is stated on good authority that there are hundreds of thousands of tons of low grade dump rock, [illegible] on the property which can be treated successfully at a profit by the new plant. Besides this large amount of ore on the dumps there is practically an unlimited amount of low grade both oxidized and refractory rock in the mine, which has never been broken down. It has long been allowed to stand during the past years, awaiting the time when it could be mined and milled at a profit to the big company. This plant will be watched with much interest by mining men in the district generally, and if it proves to be as much a success as is anticipated by the management, it is quite probable that others of the same kind will be built here by some of the larger companies and for the purpose of treating custom ore.

Dangers of the Grip.

The greatest danger from la grippe is of its resulting in pneumonia. If reasonable care is used, however, and Chamberlain's Cough Remedy taken, all danger will be avoided. Among the tens of thousands who have used this remedy for la grippe, we have yet to learn of a single case having resulted in pneumonia. For sale by all druggists.

OPENS GOOD SHAFT

Lessee on Dead Pine Has Body of Low Grade Ore.

Special to The Gazette.

CRIPPLE CREEK, March 10.—Peter Hanson, who recently took a lease on the 500-foot level of the Dead Pine of the Ophir company on Battle mountain, has opened up a shoot of ore which is between 10 to 12 feet wide, and which carries values of from $10 to $12. One car of ore was sent out which [illegible] returns of $40, but this ore was stripped from the wall of an old stope. Work is being pushed on the low grade stuff and a good sized tonnage will be steadily maintained. It is hoped that the grade will show better values as work progresses, but even though it does not, with a big tonnage of low grade a small profit is posible.

There are several sets of lessees working in this property, but most of them are mining on small but high grade streaks. The tonnage sent out by these operators is small, but they are able to make very good returns.

Routes for this year's Glidden tour have been suggested by the Greater Charlotte club, an industrial organization of Charlotte, N. C., and by the Louisiana Automobile league. The former would have it run from Cleveland down through Kentucky, Tennessee and Georgia, returning through the Carolinas and Virginia to Washington, Baltimore, Philadelphia and New York, while the latter would have it start from Denver and end at New Orleans.

Cresson Mine Has Shaft Down to 800-Foot Level and Will Open Large Ore Bodies Below.

Special to The Gazette.

CRIPPLE CREEK, March 10.—General Manager [illegible] of the Cresson [illegible] has just started to resume sinking the main working shaft. The shaft is now down to a depth of 800 feet, and it is proposed to keep two shifts busy [illegible] the shaft has attained a depth of 1,000 feet, when laterals will be extended to the big ore bodies which have been opened up on the 600, 700 and 800-foot levels.
